# 1st Annual Students' open day 2011

The College of Engineering, Design, Art and Technology (CEDAT) will on 18th-19th November 2011 host the 1st Annual CEDAT open day 2011, under the theme "Creating Employment Opportunities for Uganda's Youth through Technological Innovations"

The major event for this day will be the unveiling of the Kiira Electronic Vehicle (Kiira EV)- the first electronically driven vehicle manufactured in Uganda, by students of Makerere University. Also on this day, students will exhibit innovations and projects that they have been working on and Engineering firms will also have the opportunity to exhibit.

In addition, the college projects under the presidential initiative for scientists will be showcasing their respective progresses, impacts and achievements since their undertaking.
