African ICT Research Dissemination Workshop

Makerere University Geographical Information Systems Centre in collaboration with the University of Nairobi IDRC-ICTWCC Project 2013/2015 are organizing a one day Research Dissemination workshop to be held at Makerere University (CEDAT conference hall), Kampala on 12th December, 2014. Time 8:30am - 4:30pm

The workshop is focused on Innovative Application of ICTs in u j. Addressing Water-related Impacts of Climate Change in Africa. The workshop will be held under the theme "Innovative Application of ICTs - bridging the gap between knowledge generation and end users for climate change resilience building in Africa". The purpose of the workshop is to provide a platform to researchers to share their innovations, experiences and lessons in the use of ICTs in enhancing adaptation and resilience building to climate change in Africa.
