Course Description

- The course is about learning various computer drafting software used by architects. The course helps acquaint the student with the computer aided design skills. The student of architecture has to learn how to use the computer as a design and drafting tool.

Objectives/aim

- To develop 2D architectural drafting skills using AutoCAD or other related software.
- To develop 3D solid modelling skills using Form Z/Bonzai 3 d or 3D Studio Max or other related software.
