

Technology Consults donates to Loving Hearts Orphanage

As Technology consults Ltd, a consultancy firm based in the College of Engineering, Design, Art and Technology, celebrates 25 years this year, the company thought it right to give back to the community by undertaking various activities. On Friday March 10, 2017 the company visited Loving Hearts Orphanage in Munyonyo and donated various items such as food, pampers, wipes, soap, sugar and clothing among others. The orphanage has children from 1-day old to 3 years old. After 3 years, the children are moved to another home in Ggaba where they receive an education.

Company staff and shareholders will on Sunday March 19, 2017 paint the Zebra Crossing at Kitante (near the Museum). This will be done to ensure safety of students of Kitante Primary School as well as other road users.

Brief profile

Technology Consults Ltd (TECO) is an independent limited liability company based in the College of Engineering, Design, Art and Technology, Makerere University. The majority of its shareholders are members of staff in the College. Incorporated in 1992, it was a result of realisation by staff members that while many of them were practising individually off-campus, they would make a synergetic combination if they combined their wide range of expertise and experience under one umbrella. A tradition of academic thoroughness has therefore been combined with professional experience to produce a company whose culture is verbalised by the motto: ***Quality and Efficiency***

With the College of Engineering, Design, Art and Technology offering Courses in Architecture, Surveying, Electrical, Mechanical and Civil Engineering and also Courses in Quantity and Valuation Surveying, Members of Staff quickly realised that they can provide complete consultancy services for any building and civil engineering project with little or no input from external consultants. However in order to synthesize with the consultants in the private sector and to gain additional practical experience, TECO has been working with a network of associated Consultancy Firms on different projects.

TECO has successfully completed projects for leading international funding agencies such as the World Bank, The African Development Bank, Islamic Development Fund, DANIDA, NORAD, and SIDA/SAREC.
