

MAKERERE

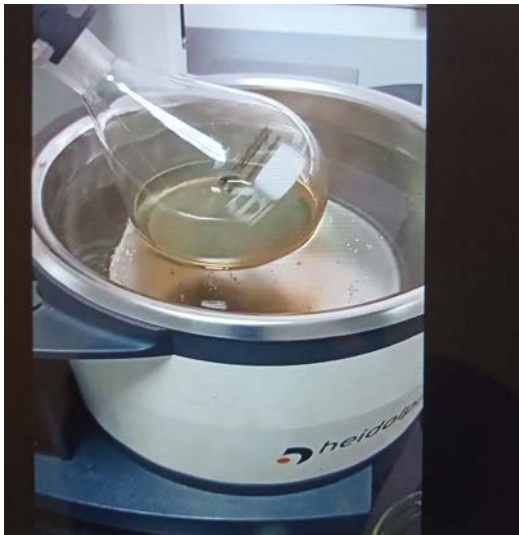

UNIVERSITY

Nanotechnology Training Workshop

Materials Research Unit, Department of Mechanical Engineering, College of Engineering Design Art and Technology Makerere University in collaboration with MakRIF invites applications for a sponsored short course.

The course features theoretical and hands-on practical training in green synthesis and characterization of inorganic nanoparticles using a Scanning Electron Microscope (SEM).

Break tea, Lunch, and Refreshments will be provided.

Note: [There are up to 10 slots available](#)

Duration: 17th-21st January 2022
ology Lab
