

EOAFRICA - Research and Development Facility

F2F course on SAR Polarimetry and Interferometry

16th - 20th March 2026

Makerere University GIS Centre (CEDAT),
Kampala, Uganda

[Register here](#) 

REGISTRATION IS OPEN till February 9
DON'T MISS IT!

Get ready to take part in this 5-day training and learn how to interpret radar signals, explore advanced SAR techniques like polarimetry and interferometry and apply them to real-world challenges in forestry and food security.

Work hands-on in a cloud-based environment with experts and peers from across Africa, and discover the future of SAR missions.

***For participants not residing in Kampala partial sponsoring is available
(check website for details)***
